Welcome to the Novoferm 2024 Price List

We are delighted to introduce the new Novoferm 2024 Price List.

Your feedback has led to some significant changes that will enhance our product range and make it easier for you to order our brilliant products!

Key highlights include:

Steel Up & Over and GRP Doors

Steel frames are now included in the price of all Steel Up and Over and GRP doors, eliminating the need to add this to your final price.

Roller Doors

Boxes are now included in the price of Novorol 77 roller doors as standard (no more adding boxes to the final price). No box and half box options are still available on request.

Somfy

Somfy motors and accessories are now available for all Novorol roller doors for enhanced functionality. Novorol roller doors will also now be supplied with Somfy control units as standard, offering advanced automation features. If, however, you prefer Novorol 20 control units, these are still available on request at no additional charge.

Sectional Doors

ISO 70 sectional doors have been removed from the range due to the increased popularity of our ISO 45 Evo sectional doors and their market leading U-Values (0.46 W/m²K).

We'd like to thank you all for your continued support in making Novoferm the trade supplier of choice.

The Novoferm Team

Contents

ISO 45 EVO

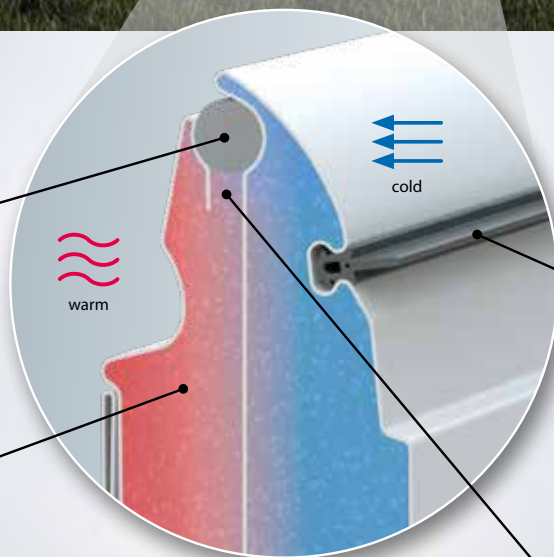

THE PREMIUM SECTIONAL GARAGE DOOR WITH THERMAL BREAK

✓ Additional seal in the section head.

✓ The new, optimised steel sections are manufactured exclusively in a double-skinned, thermally broken sandwich construction with a thickness of 45 mm.

✓ Exceptionally good heat insulation value for the section of $U(p) = 0.46 \text{ W/m}^2\text{K}^*$

✓ Additional insulating seal between the sections for even better heat insulation.

✓ Thermal break between the door's outer and inner shells.

*With respect to door solutions with comparable section thicknesses. Performance dependent on door pattern and size.

Novoferm Sectional Door Specifications

All Novoferm ISO 20 steel overhead sectional garage doors are supplied 20mm thick double skinned steel sections made of hot galvanised thin sheet, with CFC free PUR rigid foam (insulation value $k=1.0 \text{ W/m K}$) giving good heat and sound insulation, anti pinch profile.

All Novoferm ISO 45 EVO steel overhead sectional garage doors are supplied 45mm thick double skinned steel sections made of hot galvanised thin sheet, with CFC free PUR rigid foam (insulation value $k=0.5 \text{ W/m K}$) giving excellent heat and sound insulation, anti pinch profile.

All Novoferm overhead sectional doors can be supplied with locking if required as an extra, this will be drilled on the right hand side viewed from outside as standard unless otherwise requested. Novoferm ISO 20 and ISO 45 EVO steel overhead sectional door panels are supplied in woodgrain and smooth surface pattern, a pre-finished polyester exterior coating (RAL 9016 as standard). All sections are prepared for mounting hardware, floor profile, floor seal and locking (if required).

All Novoferm ISO 20 steel overhead sectional garage doors are supplied with triple safety extension spring assemblies positioned to the rear of the vertical frame legs.

All Novoferm ISO 45 EVO overhead sectional garage doors are supplied with triple safety extension spring assembly positioned to the rear of the vertical frame legs for doors under 3 metres wide x 2.7 metres high.

All Novoferm ISO 45 EVO overhead sectional doors over 3 metres wide x 2.7 metres high are supplied with front mounted torsion spring shafts and galvanised torsion springs as standard, spring break safety feature tested in accordance with DIN EN 12604 and steel lifting cables. (Optional low headroom kit may be added if required).

All Novoferm ISO 20 and ISO 45 EVO overhead sectional garage doors are supplied with angle frames and fascia panel made of hot galvanised thin sheet steel with a smooth surface pre-finished polyester coating (white RAL 9016 as standard), frame and fascia seals are black EPDM rubber, colour matched leg profile covers are available as an optional extra.

All Novoferm garage doors and operators are manufactured according to the strict quality management system ISO 9001.

- All sectional garage door systems meet the high safety requirements of the European garage doors standard EN 13241.
- All Novoferm garage doors and operators are tested by recognised institutes both individually and in combination.
- At Novoferm, all garage door operators are tested in combination with all Novoferm garage doors, and comply with current standards and rulings, thus eliminating the possibility of incorrect application.
- **“TÜV-tested burglar resistance”**: The German industry association for garage doors, doors and frames (Industrieverband Tore Türen Zargen) has drawn up a guideline that defines burglar resistance based on the existing standards. TÜV NORD CERT GmbH tests and certifies the garage doors: Novoferm’s certified garage doors guarantee the highest levels of safety tested by an impartial organisation.

10 | up to 10 Years
Novoferm Warranty

---	---	--------------------

NOVOPORT® FEATURES AT A GLANCE

- Quick and easy operation via hand transmitter or push button, key button or coded keypad, mounted to the garage wall
- Soft start and stop functions
- Completely safe against scanning due to automatic signal decoding
- Simple programming via menu-guided control with LED display. Integrated fault diagnosis system facilitates potential service work
- Connectable to garage outside lighting up to max. 500 Watt
- Power saving. Only requires 4 Watts whilst on standby
- Bright LED lighting (programmable 60-240 sec.)

UNIQUE TECHNOLOGY WITH FLEXIBLE SIDE MOUNTING FOR NOVOFERM SECTIONAL GARAGE DOORS

The NovoPort® operator system not only offers maximum convenience during operation, but also during installation. After all, it is not fixed to the ceiling like conventional operators, but simply integrated into the side garage door track – either on the left or the right depending on the structural conditions. Therefore no ceiling assembly is required and any installation problems are ruled out from the outset. All structural components are preassembled in the factory and dimensionally accurate – simply insert them together and voilà!

POWER OPERATED GARAGE DOORS

It is against the law to install a power operated garage door in the UK without complying with The Machinery Directive.

To comply with the Machinery Directive both the door and the operator used in the Installation must have a declaration of Incorporation from the manufacturer.

On completion of the installation the Installer must provide a Declaration of conformity and apply a CE mark giving details of the installation (as example) to the door / operator combination, which is now classed as a machine.

The Installer must issue to the Customer a declaration of conformity on the completion of the installation.

The Installer must hold copies of both the Declarations of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace of mind that whoever installs your electric operator is both willing and able to fulfil these requirements; if they are not - do not use them!!

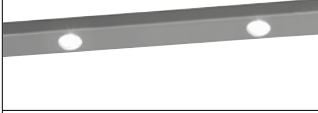

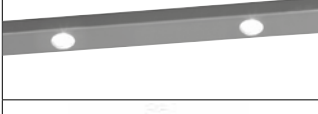

Members of the DHF Garage Door Group CAN and WILL install your Novoferm operator safely and legally.

WARRANTY INFORMATION

The purchaser is granted a warranty covering the safe and reliable functioning of the door. For full warranty details please see our website www.novoferm.co.uk.

PRICES

All orders are accepted on the understanding that the goods will be subject to the price ruling at the time of delivery, unless other terms are specifically agreed.

All prices are in £ sterling and exclude VAT. UK mainland delivery is included to the buyer's trading address - delivery to site is possible (subject to access). See delivery details below.

A 25% handling charge applies to all unwanted items on standard stock items only. Items must be returned unopened and in an unused condition.

All returns are subject to acceptance by the manufacturer of the garage doors.

All doors are bespoke and made to order. Your right to cancel is not available on non-standard made to order doors.

Returns can be collected subject to charge. Contact your Sales Representative for up to date pricing

DELIVERY CHARGES TO SITE

All doors are bespoke and made to order. Your right to cancel is not available on non-standard made to order doors once they have started production, typically 24 hours after receipt of order confirmation.

For delivery charges to site please call our customer service team on **01582 563777**.

A minimum of 24 hours' notice will be given for all deliveries.

Should you require delivery at a later date, please advise at point of order.

SPECIFICATION

Due to the progressive outlook of the manufacturer we reserve the right to alter specifications to design and manufacture without notification.

Where any manufacturer changes affect the aesthetics, feature, or installed functionality of the door, we may seek approval prior to completion of the order.

All specifications and details are correct at the time of publication, errors and omissions excepted. Where any manufacturer changes affect the aesthetics, feature, or installed functionality of the door, we may seek approval prior to completion of the order. Where exact colour matching is a requirement we always recommend obtaining a sample prior to final order confirmation.

For information on colour standards and colour limitation contact the Door and Hardware Federation **dhf** (dhfonline.org.uk)

ALL DOORS

Colour Match

Pairs of doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in the construction.

For information on colour standards and colour limitation contact the Door and Hardware Federation dhf (dhfonline.org.uk)

Dark colours on garage doors which are exposed to direct sunlight for a considerable period of time should be avoided as they will fade more noticeably due to the strong sunlight.

All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation due to printing processes. Where exact colour matching is a requirement we always recommend obtaining a sample prior to final order confirmation.

SIZE VARIATIONS

As the size of a door changes in height and/or width, the panel frequency and profile can change, therefore doors of the same style but of different sizes may display a significant difference in appearance.

CLEARANCES

All doors require operating clearances, i.e. the gap between the door panel and frame opening, these are inbuilt during manufacture and should not be reduced by means of infiles, or draught proofing.

DEFLECTION

When in the open position, all doors will display a level of vertical deflection or 'sag' across the width of the panel.

Individual manufacturers' specifications should be consulted for exact tolerances.

CARE AND MAINTENANCE

All doors supplied conform to UK tolerance levels in accordance with UKCA guidelines

In order to get the best from your door, and for your door to be fully covered by the Guarantee, there are some things you will need to do throughout the guarantee cover period, and throughout the life of the door. For full guidance on how to maintain and care for your garage door

Please see our website for full details on how to do this www.novoferm.co.uk
